## | Off-the-Job Training

Apprenticeships are about upskilling an individual. Reaching occupational competency takes time. Many employers and apprentices have praised the positive effect off-the-job training has on their productivity and apprentices feel valued by the significant investment in their training. You may already have existing training programmes or materials you can use to deliver elements of the apprentice's off-the-job training. Off the job learning at HBTC may include sessions at the training centre, with follow up tasks being assigned in the workplace, time for assignments and research and specific training within the workplace. All off the job training must be relevant to the Apprenticeship Standard being undertaken. This will be agreed before the learner commences the programme and a flexible approach will be taken to meet learner and employer needs.
